

Is it a Need or a Want?

Place a checkmark in front of the items that you regularly spend money on (daily, weekly or monthly). If items are not listed below add them to the bottom of the list. Then, circle the items that are needs and mark through the items that are wants. Next to each marked through item, write the estimated amount of money you spend on that item in a given timeframe, whether it be daily, weekly or monthly.

Automobile/truck	Dry cleaning	Home décor	Pet food & supplies
